6-Day Visaya Dive Safari

Starting October, the safari vessels Royo and Goya commute between Sipalay (Negros) and Moalboal (Cebu) regularly back and forth. Within 6 days you will see the best dive spots the region has to offer, including Dauin, Apo Island, Siquijor Island, Balicasag Island, Panglao Island, Sumilon Island, Sunken Island and Pescador Island.

Apo Island is one of the world's best known community-organized marine sanctuaries, and as such it has been well documented by the global science community.

At present, the island is home to over 650 documented species of fish and estimated to have over 400 species of corrals.

On Panglao, the Panglao Marine Biodiversity Project found that Panglao alone has more marine biodiversity than Japan and the Mediterranean Sea.

Sumilon Island is all of 24 hectares of luxuriant tropical greens enveloped by an astonishing collection of marine flora and fauna teeming in its azure waters.

Visaya Dive Safari Map

Cruise with us through the epicenter of marine biodiversity on earth, the Visayan Archipelago

The islands of Negros, Bohol and Cebu belong to the coral triangle, home to more than 12,000 species of fish. Be prepared for great service, good visibility, colorful corals, schools of fish, large predators, and tiny critters.
